

Ramon Roca-Pinilla, PhD

Protein Engineering & Gene Therapy Specialist

Email: ramon.roca@example.com

Phone: +34 600 000 000

EDUCATION

PhD in Biotechnology - Universitat Autònoma de Barcelona, 2018

MSc in Biomedical Engineering - UPC BarcelonaTech, 2014

RESEARCH EXPERIENCE

Senior Research Scientist, Gene Therapy Institute (2020-Present)

- Leading AAV vector optimization projects
- Developed novel liver perfusion platform
- Published 16+ peer-reviewed articles

Postdoctoral Researcher, IBEC (2018-2020)

- Specialized in functional inclusion bodies
- Antimicrobial protein engineering

KEY PUBLICATIONS

1. Tailoring capsid-directed evolution technology for improved AAV-mediated CAR-T generation. *Molecular Therapy*, 2024
2. Harnessing whole human liver ex situ normothermic perfusion for preclinical AAV vector evaluation. *Nature Communications*, 2024
3. Functional Inclusion Bodies. *Trends in Biotechnology*, 2022

TECHNICAL SKILLS

- Protein Engineering & Expression Systems
- AAV Vector Development & Optimization
- Gene Therapy Platform Development
- Bioinformatics & Computational Biology
- Ex Situ Organ Perfusion Techniques
